City Invites the Community to Kick Off Meeting for the Copperas Branch Park Master Plan

The City has begun the master plan process for Copperas Branch Park and invites the community to a kick off meeting on Thursday, April 18, at Doubletree Ranch Park. The meeting will take place from 6:30 p.m. – 9:00 p.m. The kick off meeting is designed to share the master plan process with attendees and then seek their input on the big ideas for the re-development of the park. CoServ's Snack Wagon will be on site providing free barbeque sandwiches for attendees.

Copperas Branch Park was returned to us in August 2018 after being used as a staging area for the 35Express project. We are working on a Master Plan for the park including the eastern quadrant of Highland Village over to Doubletree Ranch Park. The plan will provide guidance for the redevelopment of Copperas Branch Park. This planning process will set a vision for the park by engaging the community to help develop the big idea. The vision will be a framework for the park's use and development for the next several decades. The framework will allow the City to provide a variety of recreational opportunities in an environmentally sound and sensitive manner. The master plan will have real data and a solid background that can insure feasibility and timely implementation. Together with the citizens input, the City is working with professional parks and recreation planners and designers to explore options for Coppers Branch Park.

The City has launched SpeakUpHV.com to serve as the online community engagement platform that will house all information relating to the Copperas Branch Park master plan process. The community is encouraged to visit the site and provide their ideas.
